E.  SESSION SUMMARY:

        Site has object that was very wide and circular or
semi-circular.  I felt that I was outside watching an event of some
type.  People can be at the site.  There may have been a tall
object at the site but it was not the predominat feature.  I had a
sense that animals were at the site.  Decorative letters were at
the site.
        At one point I felt that I went inside the object
and it was nice inside.
        I could see a large letter "A"

object
